

Classic City Woodturners

Minutes from the business portion of the January meeting are as follows:

Three visitors and thirty-four CCW members were in attendance.

David Luthi reported that there is \$3408 in the CCW treasury.

It was moved and seconded to pay ~\$600 to have Ray Key join us for a workshop. This was passed by unanimous vote.

President Bill Gohdes noted that our meeting location will be changing starting in February. We will be moving to the Clarke Central High School Construction Lab. Driving directions and a map can be found on our website at <http://www.classiccitywoodturners.com/meeting.html> .

President Bill Gohdes asked for volunteers for a Facilities Committee, as well as a new Instant Gallery Photographer in order to allow Jim Underwood more time during the meetings to assist with the business portion of the meetings. If you are interested in either the Facilities Committee or have skill in photography, please email Bill at gohdesw@charter.net .

Finally, the next challenge to club members is to turn an acorn birdhouse for display at the next Instant Gallery.

Submitted by Bill Van Wie.
